IMMUNOLOGY

CONTENTS

Vol. 56 No. 1 **September 1985**

P. G. HARTE, N. C. ROGERS & G. A. T. TARGETT: Role of T cells in preventing transmission of rodent malaria 1

O. BAGASRA, H. KUSHNER & S. HASHEMI: Lymphocyte function in experimental endemic syphilis of Syrian hamsters 9

T. B. ISSEKUTZ: Characteristics of lymphoblasts appearing in efferent lymph in response to immunization with vaccinia virus 23

M. CHEN-WOAN, D. H. SAJEWSKI & D. D. MCGREGOR: T-cell co-operation in the mediation of acquired resistance to *Listeria monocytogenes* 33

S. YAMAZAKI, K. MACHII, S. TSUYUKI, H. MOMOSE, T. KAWASHIMA & K. UEDA: Immunological responses to monoassociated *Bifidobacterium longum* and their relation to prevention of bacterial invasion 43

J. V. PEPPARD, L. E. JACKSON & N. M. MACKENZIE: Comparison of *in vitro* binding to enterocyte brush borders of rat IgG subclasses and their transmission *in vivo* in the rat 51

S. STROBEL, A. MCI. MOWAT & A. FERGUSON: Prevention of oral tolerance induction to ovalbumin and enhanced antigen presentation during a graft-versus-host reaction in mice 57

M. HALONEN, A. M. DUNN & I. C. LOHMAN: Effect of specific IgG on IgE-induced systemic anaphylaxis in the rabbit 65

V. VĚTVIČKA, L. FORNŮSEK & J. ZÍDKOVÁ: The expression of Fc and complement receptors in young, adult and aged mice 73

D. CAMPBELL & B. M. VOSE: T-cell control of IgA production. I. Distribution, activation conditions and culture of isotype-specific regulatory helper cells 81

M. H. BOCCHIERI: T-suppressor clones derived from murine AMLR 93

G. S. BIXLER, T. YOSHIDA & M. Z. ATASSI: Antigen presentation of lysozyme: T-cell recognition of peptide and intact protein after priming with synthetic overlapping peptides comprising the entire protein chain 103

R. LELCHUK & J. H. L. PLAYFAIR: Serum IL-2 inhibitor in mice. I. Increase during infection 113

D. MALE, R. LELCHUK, S. CURRY, G. PRYCE & J. H. L. PLAYFAIR: Serum IL-2 inhibitor in mice. II. Molecular characteristics 119

K. KURIBAYASHI, A. KEYAKI, S. SAKAGUCHI & T. MASUDA: Effector mechanisms of syngeneic anti-tumour responses in mice. I. Establishment and characterization of an exogenous IL-2-independent cytotoxic T-lymphocyte line specific for radiation-induced leukaemia RL♂1 127

A. KEYAKI, K. KURIBAYASHI, S. SAKAGUCHI, T. MASUDA, J. YAMASHITA, H. HANDA & E. NAKAYAMA: Effector mechanisms of syngeneic anti-tumour responses in mice. II. Cytotoxic T lymphocytes mediate neutralization and rejection of radiation-induced leukaemia RL♂1 in the nude mouse system 141

N. A. M. Paterson, D. J. L. McIver & S. Schurch: Zymosan enhances leukotriene D_4 metabolism by porcine alveolar macrophages 153
K. Shiozawa, S. Shiozawa, S. Shimizu & T. Fujita: 1α, 25-dihydroxyvitamin D_3 inhibits pokeweed mitogen-stimulated human B-cell activation: an analysis using serum-free culture conditions 161
S. Moriguchi, L. Werner & R. R. Watson: High dietary vitamin A (retinyl palmitate) and cellular immune functions in mice 169
R. H. R. Ward & P. J. Lachmann: Monoclonal antibodies which react with lymphocyte-lysed target cells and which cross-react with complement-lysed ghosts 179
P. M. Ndumbe & R. J. Levinsky: Differences in surface antigen expression of human fibroblasts cultured from bone marrow compared with those obtained from skin and embro lung tissue 189

Vol. 56 No. 2 **October 1985**

C. S. Pavia, C. J. Niederbuhl & J. Saunders: Antibody-mediated protection of guinea-pigs against infection with *Treponema pallidum* 195
D. Wakelin, A. M. Donachie & R. K. Grencis: Genetic control of immunity to *Trichinella spiralis* in mice: capacity of cells from slow responder mice to transfer immunity in syngeneic and F_1 hybrid recipients 203
R. K. Grencis, J. Riedlinger & D. Wakelin: L3T4-positive T lymphoblasts are responsible for transfer of immunity to *Trichinella spiralis* in mice 213
S. H. Pincus & P. Cammarata: Eosinophil adherence to infective larvae of *Trichinella spiralis*: quantification and modulation 219
L. Ruben & C. L. Patton: Antibodies to calmodulin during experimental *Trypanosoma brucei rhodesiense* infections in rabbits 227
L. Mellow & E. Sabbadini: Effect of *Bacillus Calmette-Guérin* on the *in vitro* generation of cytotoxic T lymphocytes. II. Role of interleukin-1-like factors and of soluble suppressor factors 235
G. Serebrinsky & M. A Isturiz: Reversal of antibody-dependent cellular cytotoxicity suppression by cycloheximide 245
A. McI. Mowat: The role of antigen recognition and suppressor cells in mice with oral tolerance to ovalbumin 253
A. Kemp, L. Mellow & E. Sabbadini: Suppression and enhancement of *in vitro* lymphocyte reactivity by factors in rat submandibular gland extracts 261
P. Hutchings, S. Marshall-Clarke & A. Cooke: Suppression of induced erythrocyte autoantibodies is dependent on Lyt 1 cells 269
V. Holáň, M. Lipoldová, M. Takáč, J. Černá, A. Vančatová, D. Čechová, L. Veselský & M. Hašek: Establishment and characterization of a permanent T-cell line producing an antigen non-specific suppressor factor 275
M. M. Werber, J. Goldman, J. Radnay, S. Klein & L. A. Rozenszajn: Identification and purification of human T-lymphocyte colony-enhancing factor, TLCEF: increased production by phorbol myristate acetate 285
R. D. Goldin, R. A. Boulton & A. W. Boylston: Quantitative relationship between T3 and the T-cell antigen receptor on a human leukaemic line 295

R. PABST, R. M. BINNS & S. T. LICENCE: Surface markers on lymphocytes leaving pig lymph nodes 301
J. WITKOWSKI & H. S. MICKLEM: Decreased membrane potential of T lymphocytes in ageing mice: flow cytometric studies with a carbocyanine dye 307
J. R. WATKINS, M. R. LOKEN & K. L. KNIGHT: Two B-cell subpopulations identified by flow cytometry 315
G. G. B. KLAUS, M. K. BIJSTERBOSCH & M. HOLMAN: Activation and proliferation signals in mouse B cells. VII. Calcium ionophores are non-mitogenic polyclonal B-cell activators 321
J. GORDON, G. GUY & L. WALKER: Autocrine models of B lymphocyte growth. I. Role of cell contact and soluble factors in T-independent B-cell responses 329
T. J. HALL, R. RYCROFT & J. BROSTOFF: Decreased natural killer cell activity in atopic eczema 337
J. L. EBERSOLE, D. J. SMITH & M. A. TAUBMAN: Secretory immune responses in ageing rats. I. Immunoglobulin levels 345
E. DUVALL, A. H. WYLLIE & R. G. MORRIS: Macrophage recognition of cells undergoing programmed cell death (apoptosis) 351
A. NÁRAY-FEJES-TÓTH, G. G. CORNWELL & P. M. GUYRE: Glucocorticoids inhibit IgE receptor expression on the human monocyte cell line U937 359
O. KILDAHL-ANDERSEN & J. NISSEN-MEYER: The role of monocyte cytotoxic factor (CF) in cytostasis mediated by IFN-γ-activated monocytes 367

Brief communications

G. LOMBARDI, E. PICCOLELLA, D. VISMARA, V. COLIZZI & M. ZEMBALA: Monocyte subsets in the production of inhibitory factor by *Candida albicans*-activated human T cells 373
C. G. VAN BOHEMEN, R. J. LIONARONS, P. VAN BODEGOM, H. J. DINANT, J. E. LANDHEER, A. J. J. M. NABBE, F. C. GRUMET & H. C. ZANEN: Susceptibility and HLA-B27 in post-dysenteric arthropathies 377
Book reviews 381

Vol. 56 No. 3 **November 1985**

P. LARSSON, R. HOLMDAHL, L. DENCKER & L. KLARESKOG: *In vivo* treatment with W3/13 (anti-pan T) but not with OX8 (anti-suppressor/cytotoxic T) monoclonal antibodies impedes the development of adjuvant arthritis in rats 383
A. MORGAN, D. A. ISENBERG, Y. NAPARSTEK, J. RAUCH, D. DUGGAN, R. KHIROYA, N. A. STAINES & A. SCHATTNER: Shared idiotypes are expressed on mouse and human anti-DNA autoantibodies 393
B. GUILBERT, W. MAHANA, M. GILBERT, J.-C. MAZIE & S. AVRAMEAS: Presence of natural autoantibodies in hyperimmunized mice 401
C. J. SECOMBES, A. E. LEWIS, L. M. LAIRD, E. A. NEEDHAM & I. G. PRIEDE: Role of autoantibodies in the autoimmune response to testis in rainbow trout (*Salmo gairdneri*) 409
S. H. M. JEURISSEN, E. CLAASSEN, N. VAN ROOIJEN & G. KRAAL: Intra-intestinal priming leads to antigen-specific IgA memory cells in peripheral lymphoid organs 417
L. WANGER, P. OTTESKOG & K.-G. SUNDQVIST: Anchorage and lymphocyte function. Acquisition of spontaneous motile behaviour by human blood lymphocytes and its modulation by concanavalin A 425
M. K. BIJSTERBOSCH & G. G. B. KLAUS: Cyclosporine does not inhibit mitogen-induced inositol phospholipid degradation in mouse lymphocytes 435

R. C. Newton: Effect of interferon on the induction of human monocyte secretion of interleukin-1 activity 441
M. J. Blackman & A. G. Morris: The effect of interferon treatment of targets on susceptibility to cytotoxic T-lymphocyte killing: augmentation of allogeneic killing and virus-specific killing relative to viral antigen expression 451
T. Reme, C. Cognot & A. Dupuy D'Angeac: Resistance to metabolic inactivation is a functional phenotype of radioresistant stimulating spleen cells (RSCs) in allo-CTL generation 459
R. M. Gorczynski & M. Boulanger: A role for self-recognizing T cells in the regulation of antibody-forming and cell-mediated cytotoxic responses in the mouse 467
R. Girard & R. Chaby: Inhibition of lipopolysaccharide mitogenicity with characterized anti-lipid A monoclonal antibodies 481
Y. Kawade & Y. Watanabe: The nature of neutralization reaction between effector protein and monoclonal antibody: a quantitative study of neutralization characteristics of anti-interferon antibodies. 489
Y. Kawade: Neutralization of activity of effector protein by monoclonal antibody: formulation of antibody dose-dependence of neutralization for an equilibrium system of antibody, effector, and its cellular receptor 497
K. Isobe, A. Fortunato, V. Giguere, F. Grosveld & N. A. Mitchison: Anti-Thy-1 antibody responses evoked by Thy-1 antigen expressed in transfected mouse mastocytoma cells and rat fibroblast 505
B. Schick & K. F. Austen: Pharmacological modulation of activation-secretion of rat serosal mast cells by chymase, an endogenous secretory granule protease 513
A. O. Wozencraft, S. L. Croft & G. Sayers: Oxygen radical release by adherent cell populations during the initial stages of a lethal rodent malarial infection 523
M. Ito, R. Karmali & M. Krim: Effect of interferon on chemiluminescence and hydroxyl radical production in murine macrophages stimulated by PMA 533
B. Collet, A. Martin, G. Merdrignac, B. Genetet & L. Toujas: Modulation of expression of mouse macrophage surface antigens by monoclonal antibodies 543
L. Smith , R. A. Adams & C. Burston: Significance of 801 monoclonal proteins detected during 7 years of screening in a District General Hospital 549
D. Hurez, P. Youinou, J. Gombert & J. L. Preud'Homme: Survey of monoclonal gammopathy in western France: incidence and unexpected high frequency of IgM 557
M. A. Smith & M. A. Kerr: Cleavage of the second component of complement by plasma proteases: implications in hereditary C1-inhibitor deficiency 561
Brief communication
M. Ohta, N. Kido, I. Nakashima & N. Kato: Adjuvant actions of linear mannan-possessing lipopolysaccharide (LPS) in LPS-resistant C3H/HeJ mice 571

Vol. 56 No. 4 **December 1985**

C. J. SANDERSON, M. STRATH, D. J. WARREN, A. O'GARRA & T. B. L. KIRKWOOD: The production of lymphokines by primary alloreactive T-cell clones: a co-ordinate analysis of 233 clones in seven lymphokine assays 575

Y. SANO, N. HARADA & K. TAKATSU; Three functionally distinct helper T-cell clones: the roles for antigen non-specific helper factors in B-cell activation through two different pathways 585

A. L. LUZZATI, E. GIACOMINI & I. LEFKOVITS: Expression of antibody-forming cell clones in two-stage cultures: an attempt to separate proliferation and maturation events 597

R. F. SHELDRAKE, A. J. HUSBAND, D. L. WATSON & A. W. CRIPPS: The effect of intraperitoneal and intramammary immunization of sheep on the numbers of antibody-containing cells in the mammary gland, and antibody titres in blood serum and mammary secretions 605

E. P. COHEN & K. HAGEN: Leukaemia × fibroblast hybrid cells augment the antibody response to sheep red blood cells in inbred mice. 615

A. SETO & T. HASEGAWA: Autoanti-allotype antibodies and idiotypic network regulating allotype production in rabbits 625

J. D. SEDGWICK & P. G. HOLT: Down-regulation of immune responses to inhaled antigen: studies on the mechanism of induced suppression 635

S. NEGORO, T. TAKASHIMA, H. TOBA & S. KISHIMOTO: Induction of persistent autoimmune haemolytic anaemia in mice by combined use of rat erythrocyte preimmunization and chronic GVHR 643

V. COLIZZI, M. MALKOVSKY, G. LANG & G. L. ASHERSON: *In vivo* activity of interleukin-2: conversion of a stimulus causing unresponsiveness to a stimulus causing contact hypersensitivity by the injection of interleukin-2 653

S. POURBOHLOUL, G. S. MALLETT & T. M. BUTTKE: Inhibition of lymphocyte proliferation by free fatty acids. III. Modulation of thymus-dependent immune responses 659

R. PERVIN, B. I. KANNER, G. MARX & E. RAZIN: Thrombin-induced degranulation of cultured bone marrow-derived mast cells: effect on calcium uptake 667

N. HOGG, D. G. PALMER & P. A. REVELL: Mononuclear phagocytes of normal and rheumatoid synovial membrane identified by monoclonal antibodies 673

A. SOMEYA: Specific surface antigens expressed on activated mouse peritoneal macrophages and recognized by a novel monoclonal antibody 683

E. CLAASSEN & N. VAN ROOIJEN: Evidence that macrophages in the marginal zone have no role in the migration of lymphocytes into the periarteriolar lymphocyte sheaths (PALS) 689

E. P. MACCARTHY, A. HSU, Y. M. OOI & B. S. OOI: Modulation of mouse mesangial cell proliferation by macrophage products 695

D. HASSIN, R. FIXLER, H. BANK, A. S. KLEIN & Y. HASIN: Cytotoxic T lymphocytes and natural killer cell activity in the course of mengo virus infection of mice 701

P. A. BERCHE: Resistance to listeriosis in two lines of mice genetically selected for high and low antibody production 707

K. J. GOGOLIN-EWENS, C. R. MACKAY, W. R. MERCER & M. R. BRANDON: Sheep lymphocyte antigens (OLA). I. Major histocompatibility complex Class I molecules 717

N. K. PURI, C. R. MACKAY & M. R. BRANDON: Sheep lymphocyte antigens (OLA). II. Major histocompatibility complex Class II molecules 725

T. HIDVÉGI, G. FÜST, É. RAJNAVÖLGY, J. KULICS & J. GERGELY: Non-covalently bound C3 enhances lysis of rabbit erythrocytes through the alternative pathway. 735

T. FUJII, A. SEKIZAWA & C. KATAGIRI: Characterization of the fourth component of complement in the serum of the clawed frog *Xenopus laevis* 743

A. LAULAN, A. MOREL, J. LESTAGE, M. DELAAGE & P. CHÂTEAUREYNAUD-DUPRAT: Evidence of synthesis by *Lumbricus terrestris* of specific substances in response to an immunization with a synthetic hapten 751

Book reviews 759
